

Global Leadership Program

Global Leadership Program (GLP) was established in 2007 at Osaka School of International Public Policy (OSIPP), Osaka University, as a collaborative alliance with CSR conscious companies and individuals in Japan.

Since then GLP has developed world-class leadership learning methods.

Our mission is to offer future professionals the best possible opportunities to learn to make a better world.

【 Four core principles 】

1. Learn by example, from genuine people.

2. Learn to change by dialogue.

3. Raise artistic senses for better perception.

4. Learn by doing and reflection.

GLP **welcomes** those who wish to solve the challenges that we are seeing around the world to make it more livable than it is now.

1-31 Machikaneyama , Toyonaka, Osaka 560-0043, Japan
