Requirements for Graduation and Course Registration: OSIPP Master's Students [Enrollment in/after 2019]

✕ OSIPP offers several courses that include elements of both “Advanced Global Literacy Education Subjects” and “Advanced Liberal Arts Education Subjects”.
If you have already earned 2 credits from “Advanced Global Literacy Education Subjects”, these credits will be counted toward “Major Subjects”.

☆ You must complete the course registration for courses offered by other graduate schools and institutions within Osaka University on KOAN during the designated period regardless of OSIPP registration period. Please register courses early because they are available on a first-come-first-served basis due to a limit number of spaces.

Deadline for Course Registration:

Please refer to the announcement through KOAN or OSIPP website (✕).

✕ <https://www.osipp.osaka-u.ac.jp/en/curriculum/course-timetable/>

Note: With the credits earned from the other schools and institutions to count toward the “Major Subjects”, **not toward “Advanced Global Literacy Education Subjects” nor “Advanced Liberal Arts Education Subjects”**, you need to submit the “Application for approval of credits from other graduate/undergraduate schools” during OSIPP’s registration period. Based on the result of faculty deliberations, ① up to 10 credits from other graduate/undergraduate schools within Osaka University (up to 6 credits if they are undergraduate law or economics subjects), ② up to 10 credits from other universities’ subjects may be accepted as “Major Subjects”.

However up to a total of 14 credits from the above-mentioned ①, ②, “Advanced Global Literacy Education Subjects” and “Advanced Liberal Arts Education Subjects” offered by other graduate schools and institutions can be included in the OSIPP completion requirements. Please see the Course Handbook for more details (only available in Japanese).
