Admission Policy

In order to achieve personnel development defined in its education objectives, Osaka University accepts individuals who, in the course at undergraduate school or master's degree course at graduate schools, acquired basic academic skills, expertise, an attitude of voluntarily learning, and are eager to find and explore problems. In order to select such students properly, graduate schools select students through a variety of screening methods.

In order to nurture personnel who meet its educational objectives, OSIPP carefully selects persons with the following qualities, in accordance with Osaka University's Admission Policy.

- Individuals aspiring to unravel and clarify such issues from a variety of perspectives
- Individuals wishing to actively discuss with others, making use of their knowledge and points of view
- Individuals wishing to take initiative in solving public policy issues
- Individuals who are interested in languages, especially English, who wish to improve their proficiency and actively share their ideas with the world

In order to select such individuals for entry into its master course, OSIPP requires applicants to take an examination to measure English proficiency, and conducts an oral examination based on a submitted research proposal. For entry into the doctoral course, applicants must also submit a master's thesis or other equivalent document.

- Regarding English proficiency, applicants are required to have achieved a certain level in reputable tests, such as TOEFL, TOEIC, and IELTS.
- The research proposal must contain a logical and persuasive explanation regarding the topic the applicant plans to conduct research on after admission, as well as their awareness of the issues associated with the topic, and intended methodology.
- The oral examination tests the applicant's ability in terms of what is contained in their research proposal, as well as their communication skills in persuasively conveying their assertions and accurately answering questions from the examiners.
- The Master's thesis (or equivalent document) is assessed by faculty members based on their professional perspectives.

Please submit the bottom half of this sheet if you will not submit your master's thesis at the time of application for the winter admission entrance examination.

To applicants of the doctoral course for the winter admission entrance examination,

If the deadline for the master's thesis of the currently enrolled graduate school is after OSIPP's application period, applicants must submit their master's thesis no later than Tuesday, 10 January 2023 for winter admission only. By submitting the confirmation sheet below in place of the master's thesis with other application materials, your application for admission will be accepted and the deadline for submitting the master's thesis will be extended.

However, three copies of the master's thesis must be submitted by post to the Osaka School of International Public Policy by **Tuesday, 9 January 2024** (must arrived or by 4:30 p.m. JST in person). The applicant's name (and the examinee number for those who received their examination admission card) should be written on each cover page.

If the master's thesis is not submitted by the deadline above, the applicant will fail to pass the first screening (in this case, the examination fee will not be refunded). Please sign the confirmation below and submit it with the application materials.

————— Cut (Submit the bottom half of this sheet. The top half is for your records.) —————

To the Dean of the Osaka School of International Public Policy, Osaka University,

Confirmation Form for Winter Admission Master's Thesis Submission Extension

I will not submit my master's thesis at the time of application because the deadline for submission of my master's thesis at my currently enrolled graduate school is later than the application deadline for the winter admission entrance examination of the Osaka School of International Public Policy.

Accordingly, I will submit by post three copies of my master's thesis by Tuesday, 9 January 2024 (or by 4:30 p.m. JST in person).

If I do not submit the master's thesis by the deadline above, I understand that I will fail to pass the first screening and my examination fee will not be refunded.
